

MY QUARANTINE DAYS

I get up at 6 o'clock in the morning, check computer (eAsistent), then I do my homework and learn new things. After this, my family and I decide what will we have for lunch. I cook and after we finish the meal I wipe the table and do the dishes. Usually I rest up a little bit, then I mop the floor of the whole house. I sort colours and whites and put them into the washing machine. I clean the toilet and change dirty towels. Then it's time to empty the washing machine...

Just kidding, teacher...

It's the first of April, after all...

Now, for real :)

I used to go to school in the mornings, but now I get up late.

What I like the most about homeschooling is that I can take time for every exercise I get. I can also choose when to work. Communication between teachers and us has become more effective and not that tense.

Of course, I miss my classmates and schoolfriends. We sometimes call each other or exchange some messages after we finish our tasks. We also communicate via PlayStation, when we play video games.

I think not everything is that bad about this unusual situation. The whole family is at home now, so we have breakfast, lunch and dinner together.

We talk more with each other and we have finally arranged the garden. Our family has a lot of pets. I think they are pretty happy we are at home now. For example, I didn't have much time, but now I take the dogs for long walks in the afternoons. We all need some fresh air these days. I also mow the lawn twice a week. My grandpa did it before.

At the moment we are finishing the fence around the garden. We are having a great time.

I don't have any trainings, so I am not that tired and I go to sleep later than usual. I watch TV more ; The Good Doctor series and the Simpsons cartoons.

Do you know that the Simpsons jokes eventually become reality? Those, which were about dangerous virus disease situation and the ones about president Trump character? Interesting.

What worries me the most? HMM...Maybe that this is the last year I am in the Primary school and that I will not have enough time to spend with my classmates. And what about the final dance? So, after all, I hope that we return to school as quickly as we can. We should. We deserve it:)

I also hope that you and your family are safe and healthy.
